# **INTRODUCTION**

*In the name of Allah, the merciful and compassionate.*

The first statistical book provide a numerical picture which identify the number and types of complains submitted to the society in 1427H. 2006G, which reached (3575) complains. They were collected, classified and categorized by the Information, Statistics and Documentation Center in eight main categories such as, management law-suits, prisoners law-suit, workers lawsuits, family aggression lawsuits, Civil Affairs law-suits, personal affairs lawsuit and others, each category is classified into segments the personal affairs lawsuits, for example include, the following segments.

Divorce complains, nursing, alimony, deprive of guardianship, suspension abandonment, deprivation of seeing children, disinhent etc.

The goals aimed to be achieved by the society in limiting complains, classification and categorying in the annual statistic book, can be summarized as follows:-

- Upgrading the studies and reports issued by the society, by adding important source to information which the studies and reports depends upon through complains submitted to the society.
- Improvement of the society's planning for activities and programs. The planning starting from actual knowledge of reality is more effective in achieving required goals and results.
- Promote researchers and students to search in human rights law suits, the complains shown in the statistic book open wider horizons for researches in different areas including juristic, psychological, social, management, education economic and cultural studies
- Enrich the Juristic Library through providing field statistics, which the Juristic library is lack off.

- Support the concerned government bodies by preparing the international agreements reports to which the kingdom is joined in the human rights area. Often their reports suffer shortage in some statistics or non.
- Give chance to the government and non government bodies to acknowledge weakness points in their performance, in particular the political sides, procedures, practices and obligation to apply regulations in order to improve its performance.
- Enable the society to make comparison for authority performance measure for the study year and the year before by using different parameters, as for certain authority co-operation percentage with the society, which is measured by the number of letters issued by the society and the number of replies thereto.
- Enabling the society to know and determine what can be considered as problem or phenomenon requiring making deep and comprehensive studies aiming to find solutions to end the repeated accusations, cease and remove its effects, this happens when individual complain is repeated for certain practice.

Finally, I extend my thankfulness to the Chairman of the Information, Statistics and Documentation Center. Ms. Sahela Zainul Abdeen Hamad for her effort in fulfilling this work, thanks for the monitoring committee members and chairmen during the past three years, and to supervisors of the head quarters at Riyadh and the society branches in Jeddah, Gizan, Dammam and the law advisors for their efforts in studying companies and addressing the government and non-government authorities, follow up and the women employee at the Information, Statistics and Documentation Center.

Chairman of the National Society for Human Rights.

**Dr. Bander bin Mohammed Hamza Hagar.**
